

Dear Ayyapa,

I am delighted to recommend your Team Members of Water Literacy Foundation in Bangalore for the excellent work that they do with residential house owners in Bangalore.

I have known Sujatha, Veeresh A, and Veeresh M and Laxmikant who have installed in my residence the rain water harvest structures and it has been done wonderfully well. My water bill from the Bangalore Water Supply and Sewage Board (BWSSB) has come down ever since they installed water harvesting structures in my residence .

All of them are skillful and have wonderful leadership qualities .They deserve the Young Achievers Award sponsored by Brigade Group in Bangalore.Good Luck to all of them.
